4	Tom 1	-
5	Floortom	-
6	OH L	-
7	OH R	-

DRUMS TO FOH

Drums can be routed to FOH as normal, with the exception of **kick** and **snare**, which should be routed through rack unit first. In order to do this **2 additional XLR cables from venue are required**. FOH can patch into rack unit and receive a regular dry kick and snare signal.

Rack

All instruments -including kick and snare- are routed through our rack unit and can be patched into by FOH from either a **channel splitter** or a **DI module**.
